We want to say thank you and see you soon.

First a look back, and of course, the show must go on...

A wonderful 2011 year full of delights in the groove we leave behind. On the occasion of the 5zig Compilation the cooking has gone positively viral. The accompanying tour stretched a lot of muscle fibers. Now we aim a sweeping blow in the form of a digital collection as a gift, with new music for the future. We are attempting naturally through „Excess of beat rhythms, to stimulate the youth to excess“. Whether this excess is manifest in the head or the legs is for each to decide for himself. Carefully-crafted beat-music with electronic attachments are delivered to you. Please be sure to reserve appropriate storage space.

### TRACK INFORMATIONS

#### 01. Kadebostan – Portofino

The cosmos of Kadebostan is quite unique: on the one hand profound and beautiful, a trip through the colors.

#### 02. Douglas Greed – Autumn

Mr. Greed collects all the colorful leaves and modernizes them in the ecosystem of his own studio. A characteristic dark-pop Douglas on bio-gas.

#### 03. Feindrehstar – For ya Loft

Feindrehstar stripped down and thickened with some Krause Uno, to a five-star meditation ditty. Feigned in one direction, but shortly before the finale completely formed.

#### 04. Gathaspar – Serwus

One of the discoveries of the year makes film music for a mystic thriller, played in a padded room in Greenland. The psycho can also come off as quite friendly.

#### 05. Juno6 – PMU

Here it grabs you immediately and pulls the body into the forest. Suddenly the sun blazes through the evergreens – the forest dances!

#### 06. Krause Duo – Down Up Right Left – (Piano by Large Mäurer)

The sleeves are rolled up and now lets go. The deepness and the power of the beats and accords are in such a spell that no one misses the big bang.

#### 07. Monkey Maffia – Red Rude Boys „F.J.“

Monkey Maffia broods on a funk nest on a Jamaican island. What comes out? A funk monster with banging bass!

#### 08. Mathy K & The Funky Punch – Back in the Days

Disco patrons of every land unite. Are we in the year 1978? No, 2012 is the year of DISCO! Let there be funk.

#### 09. Taron-Trekka – Just

Dear Taron-Trekka, how much more pensive can it get!? Thrilling stuff somewhere between the jazz record cabinet and 90's trip-hop.

#### 10. Mooryc – Saint-Saens (Groove Mix)

The magic of Mooryc is unique. Classic elements meet fathomless, slow-motion house. How dusky can it be if there is hope for the end!?

#### 11. No Accident in Paradise – Kmos

Live, what you love and never stop dreaming. Dreams are the keys to accomplishment and life.

Best Regards,  
Oliver Goldt
